Dear LG Pathlab,

I am very impressed by the quality of the LG Pathlab histopathology reports by Dr Limci Gupta, both by their format and the content. They are very clear and concise, yet comprehensive. For clinicians, these modules are simple to read and use, for histopathologists this is a fast and accurate reporting system, and for doctors in training it is a great learning tool. Perhaps most importantly, the system can easily be incorporated into pathology lab databases. I would thus highly recommend the LG Pathlab reporting system.

Sincerely,

Clara Limback Stanic MD, PhD
Speciality Lead for Neuropathology
